# Components

## 3 in 1 Functions

- **Thermostatic asphalt hopper and cold patch bin provide both hot and cold asphalt for pavement patching**

1

2

- **Large capacity sealant melter applicator for crack sealing**

3

- **High pressure water jet for pavement or site cleaning**

## TM330 at site

## Specifications

<b>Hopper</b>	Thermostatic Hopper	3000kg	Discharge	Gravity Dumping
	Cold Patch Boh	800kg	Discharge	Hydraulic Dumping
<b>Crack Sealing System</b>	Melting tank Capacity	300L	Coverage Radius	8m
<b>Emulsion Spraying System</b>	compressed air type, thermostatically controlled			
<b>High Pressure Water System</b>	Water Tank Capacity			800L
<b>Heating System by LPG</b>	LPG Cylinder Capacity			50kg×2
<b>Roller</b>	Operating Weight	490kg	Centrifugal Force	16kN
<b>Chassis</b>	Gross Vehicle Weight	16000kg	Engine Power	132kW
<b>Other</b>	lifting platform, air compressing system, diesel generator			

We provide other options to suit different applications. Please contact us for more details. Specifications can be changed without prior notice for continual products improvement.
